

Construction Site Inspection

Project Name

Date

Inspector:

INSTRUCTIONS:

This checklist is designed to ensure a thorough inspection of the construction site. Carefully review each item and mark the corresponding checkbox for compliance or note any issues identified. Use the "Notes/Issues" section to provide additional details and actions required.

1. GENERAL SAFETY

Adequate signage and barricades are in place.

Yes No NA

Personal protective equipment (PPE) is being worn by workers.

Yes No NA

Emergency contact information is prominently displayed.

Yes No NA

First aid kits and fire extinguishers are readily accessible.

Yes No NA

Scaffolding and ladders are secure and in good condition.

Yes No NA

Action required, if any

2. SITE ORGANIZATION

Construction materials are properly stored and organized.

Yes No NA

Waste and debris are regularly removed from the site.

Yes No NA

Equipment and tools are appropriately stored when not in use.

Yes No NA

Access routes and walkways are clear and well-maintained.

Yes No NA

Temporary fencing or barriers are installed where required.

Yes No NA

Action required, if any

3. STRUCTURAL SAFETY

Foundations and structural components are being constructed as per design specifications.

Yes No NA

Reinforcement and formwork are properly installed.

Yes No NA

Proper curing measures are in place for concrete elements.

Yes No NA

Shoring and bracing are used where necessary.

Yes No NA

Structural steel components are secure and correctly installed.

Yes No NA

Action required, if any

4. ELECTRICAL SYSTEMS:

Electrical installations comply with local regulations and codes. Yes No NA

Proper grounding measures are implemented. Yes No NA

Wiring and connections are safely installed and protected. Yes No NA

Electrical panels and junction boxes are properly labeled. Yes No NA

Temporary electrical installations are secured and inspected regularly. Yes No NA

Action required, if any

5. PLUMBING AND MECHANICAL SYSTEMS

Plumbing installations comply with local regulations and codes. Yes No NA

Water supply lines are leak-free and properly connected. Yes No NA

Drainage systems are functioning correctly. Yes No NA

Mechanical equipment and systems are installed and operating as per design. Yes No NA

HVAC systems are properly maintained and provide adequate ventilation. Yes No NA

Action required, if any

6. HAZARDOUS MATERIALS

Proper handling and storage of hazardous materials (e.g., chemicals, fuels) are observed. Yes No NA

Hazardous waste is being appropriately disposed of. Yes No NA

Material Safety Data Sheets (MSDS) are readily available for all hazardous substances used on-site. Yes No NA

Spill response measures and cleanup kits are in place. Yes No NA

Action required, if any

7. WORKFORCE SAFETY:

Workers are trained on safety procedures and have appropriate certifications. Yes No NA

Fall protection measures are in place where there is a risk of falling. Yes No NA

Personal protective equipment (PPE) is being used correctly. Yes No NA

Work areas are adequately illuminated. Yes No NA

Equipment operators are properly trained and certified. Yes No NA

Action required, if any

8. DOCUMENTATION AND PERMITS:

Building permits and relevant documents are posted and up to date. Yes No NA

Inspection reports and records are being maintained. Yes No NA

Safety plans and hazard assessments are available and followed. Yes No NA

Daily construction logs are being recorded. Yes No NA

Subcontractor licenses and insurance certificates are on file. Yes No NA

Action required, if any

NOTES/ISSUES:

[Insert any additional notes or issues identified during the inspection]

STATEMENT OF APPROVAL

I hereby certify that I have conducted the above inspection and that the information provided is accurate to the best of my knowledge.
